

Three ways to Join a Teams Meeting

2 To join a meeting earlier than 5 minutes before the start time, select the Calendar button to see upcoming meetings and join up to 2 hours before they begin.

1 Invite the room to your teams meeting and press the green **Join** button up to 5 minutes before your meeting starts.

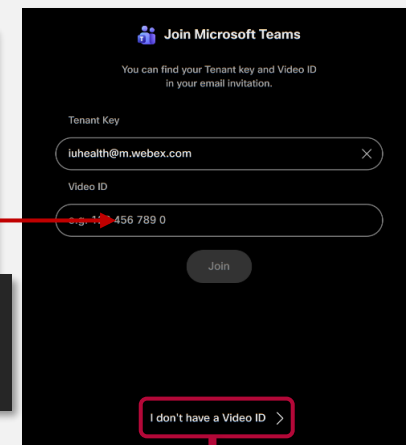

3 To join a meeting that the room was not invited to, select the Microsoft Teams button and enter the Video ID found in the meeting invite details, then press **Join**.

Join on a video conferencing device

Tenant key: iuhealth@m.webex.com

Video ID: 117 596 474 6

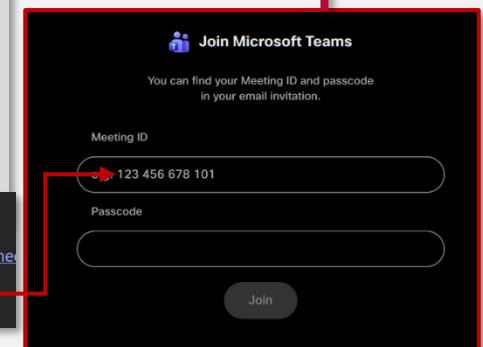

If the meeting does not have a Video ID, select 'I don't have a Video ID', enter the Meeting ID and Passcode from the meeting invite details, then press **Join**.

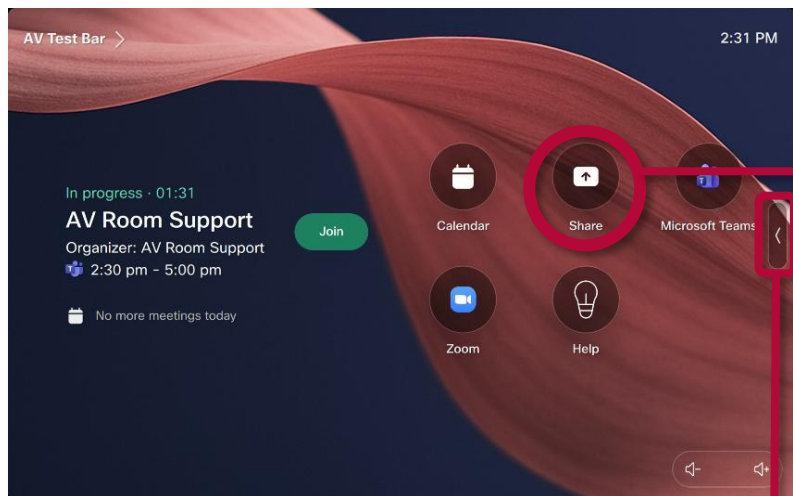

Microsoft Teams meeting

Join: <https://teams.microsoft.com/meeting/276179888014608>

Meeting ID: 276 179 888 014 608

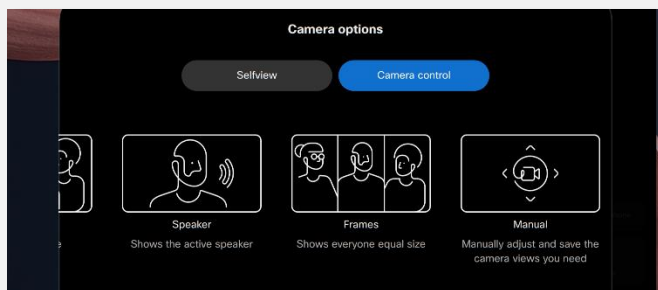

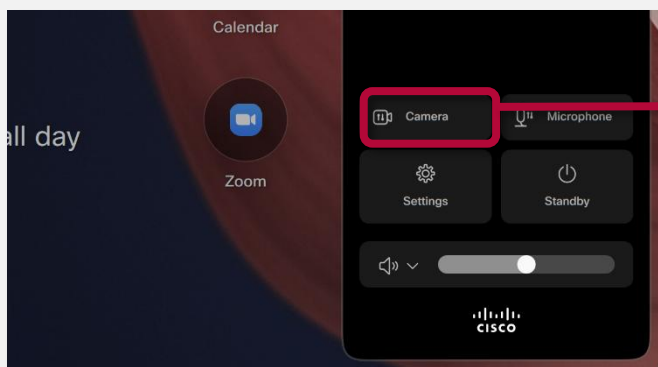

Passcode: Wg2FM6HR

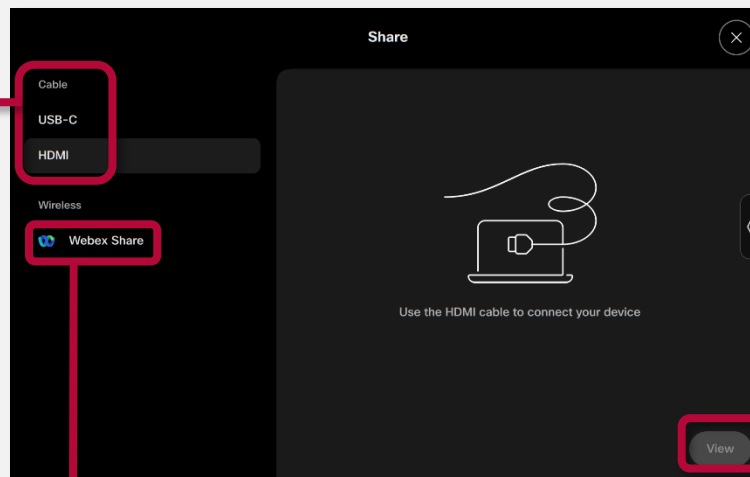

Camera Settings

Open the side panel menu to manually adjust camera settings.

Screen Sharing

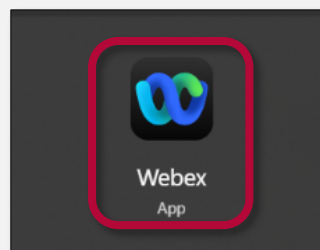

The easiest way to share content is to join the meeting from your laptop and click share in teams on your PC.

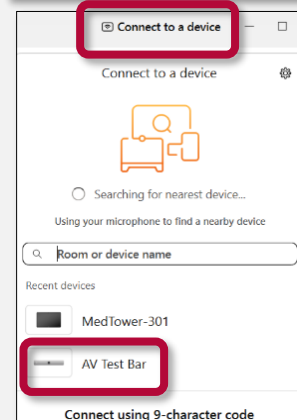

To share from a PC not in the meeting, select share and chose either USB-C or HDMI depending on which cable you have connected to in the room and press View.

Another option to share your screen is to open the Webex App on your PC and share wirelessly. The Webex App and be installed from the Computer Support App on your desktop.

1 Open the Webex App on your Laptop

2 In the upper right corner select Connect to a device, select the device, and enter the code on screen.

3 Once connected you can select Share on device to share your screen.
